1. Extract the unchanged official image

Brief steps 1.1-1.2. The supplied image is the only input. Green boxes are local OCR locations; a box shows where text is, not that it is correct.

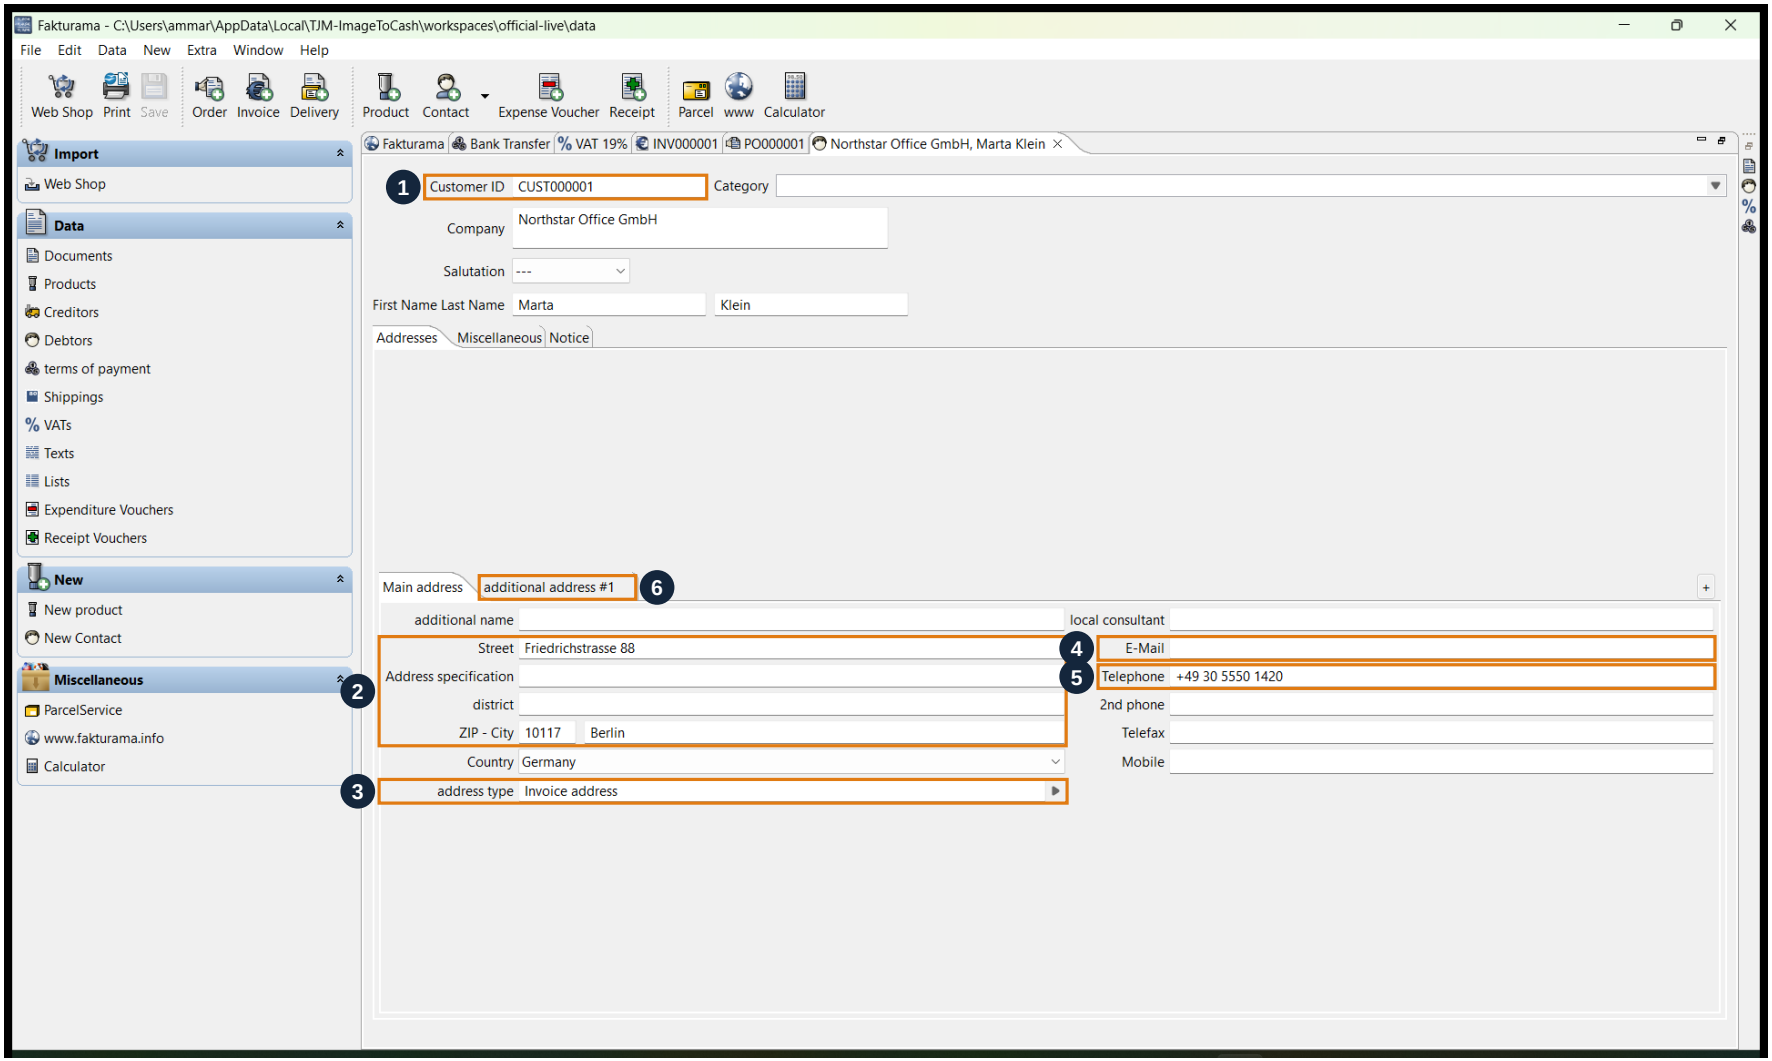

1. External reference WEB-2026-0714-A17 and Order Date 2026-07-14.
2. The source email uses the reserved .test domain. It stays unchanged in the source record.
3. Bank Transfer, literal PAID and payment date 2026-07-18.
4. Both item rows, including the 10% line discount on the chair.
5. Printed totals: EUR 570.00 net, 108.30 VAT, 678.30 gross.

Unchanged official image. Local OCR and 1 fresh Gemini call. Brand-new Fakturama workspace. 0 operator reviews and 5 provider retries. The reserved .test email did not persist and is flagged.

2. Debtor created: the source email did not persist

Brief steps 2.5-2.8, 2.13. Recorded during the run. The saved Debtor was closed and reopened, so these are persisted values.

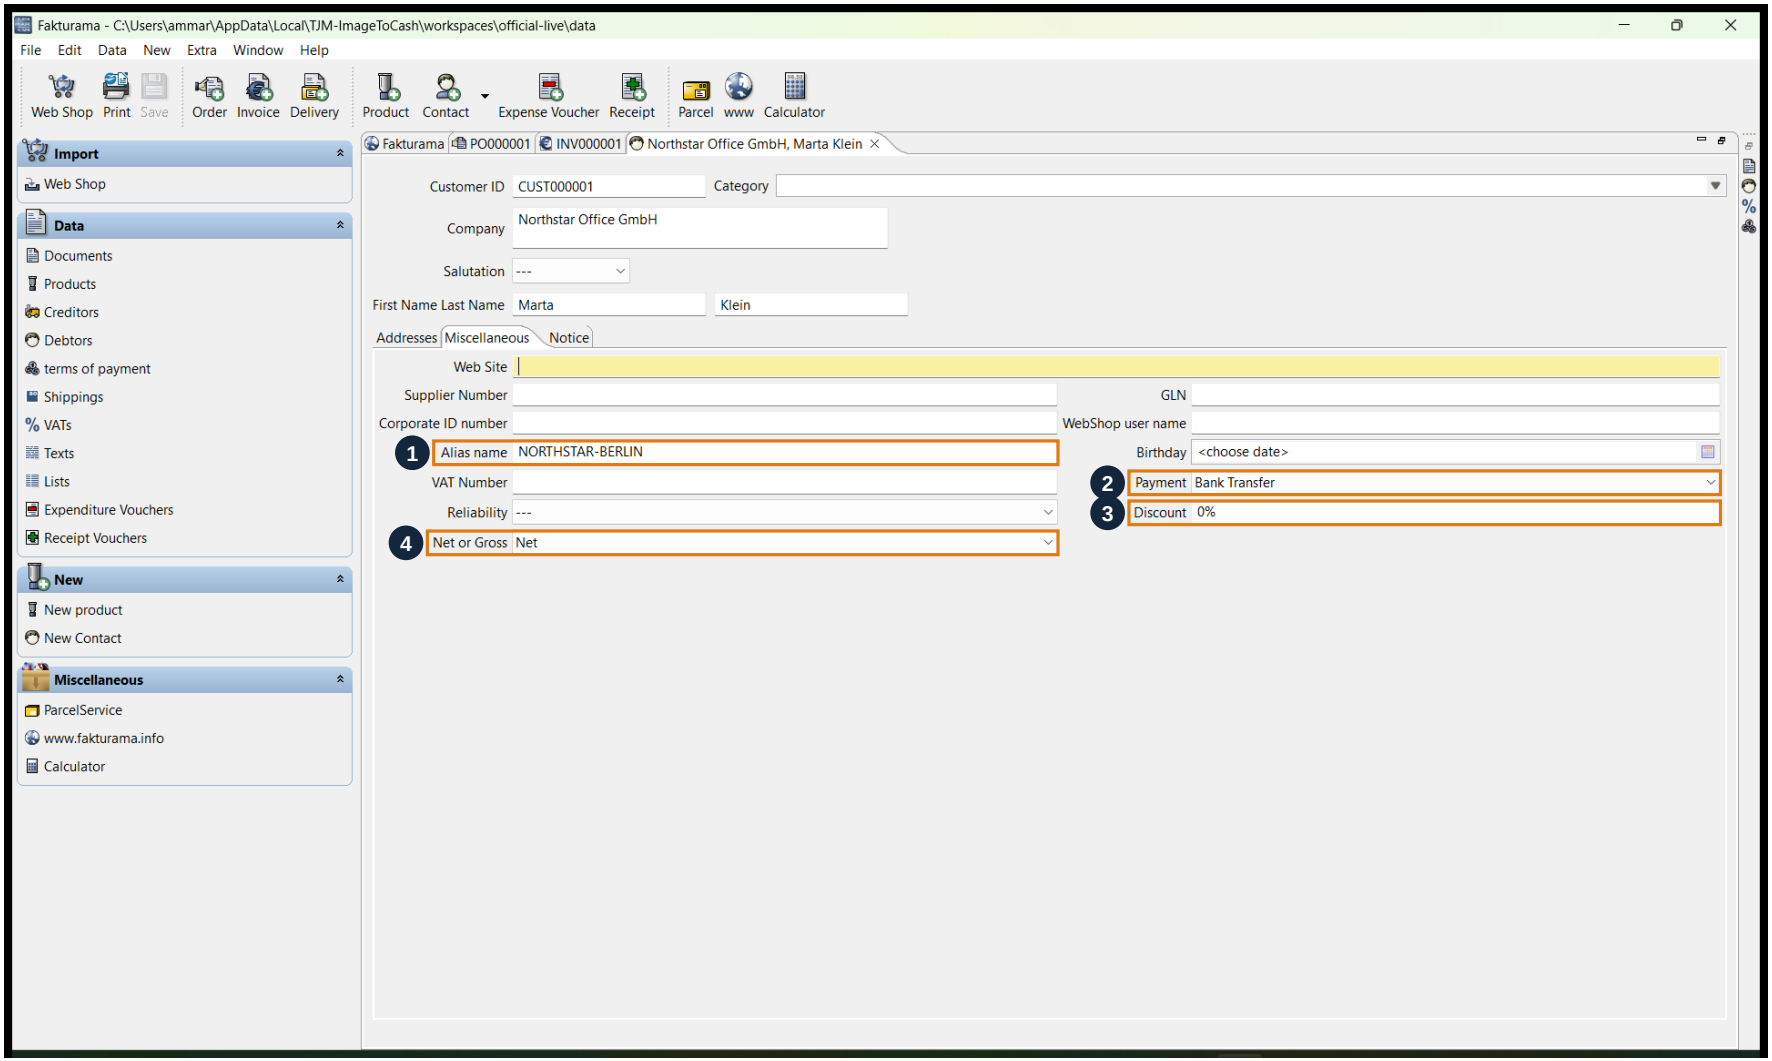

1. Fakturama's proposed Customer ID is kept.
2. Main address holds the billing Street, ZIP, City and Country.
3. Main address has the Invoice address role.
4. E-Mail is blank. Fakturama 2.2.0 did not store marta.klein@example.test. The receipt records SOURCE_EMAIL_NOT_PERSISTED and does not claim full source agreement.
5. Telephone persisted as printed.
6. The different delivery address has its own tab with the Delivery address role.

Unchanged official image. Local OCR and 1 fresh Gemini call. Brand-new Fakturama workspace. 0 operator reviews and 5 provider retries. The reserved .test email did not persist and is flagged.

3. Debtor settings: alias, discount, Net and payment

Brief steps 2.9-2.10. Later read-only audit of the saved record, not a recording of its creation.

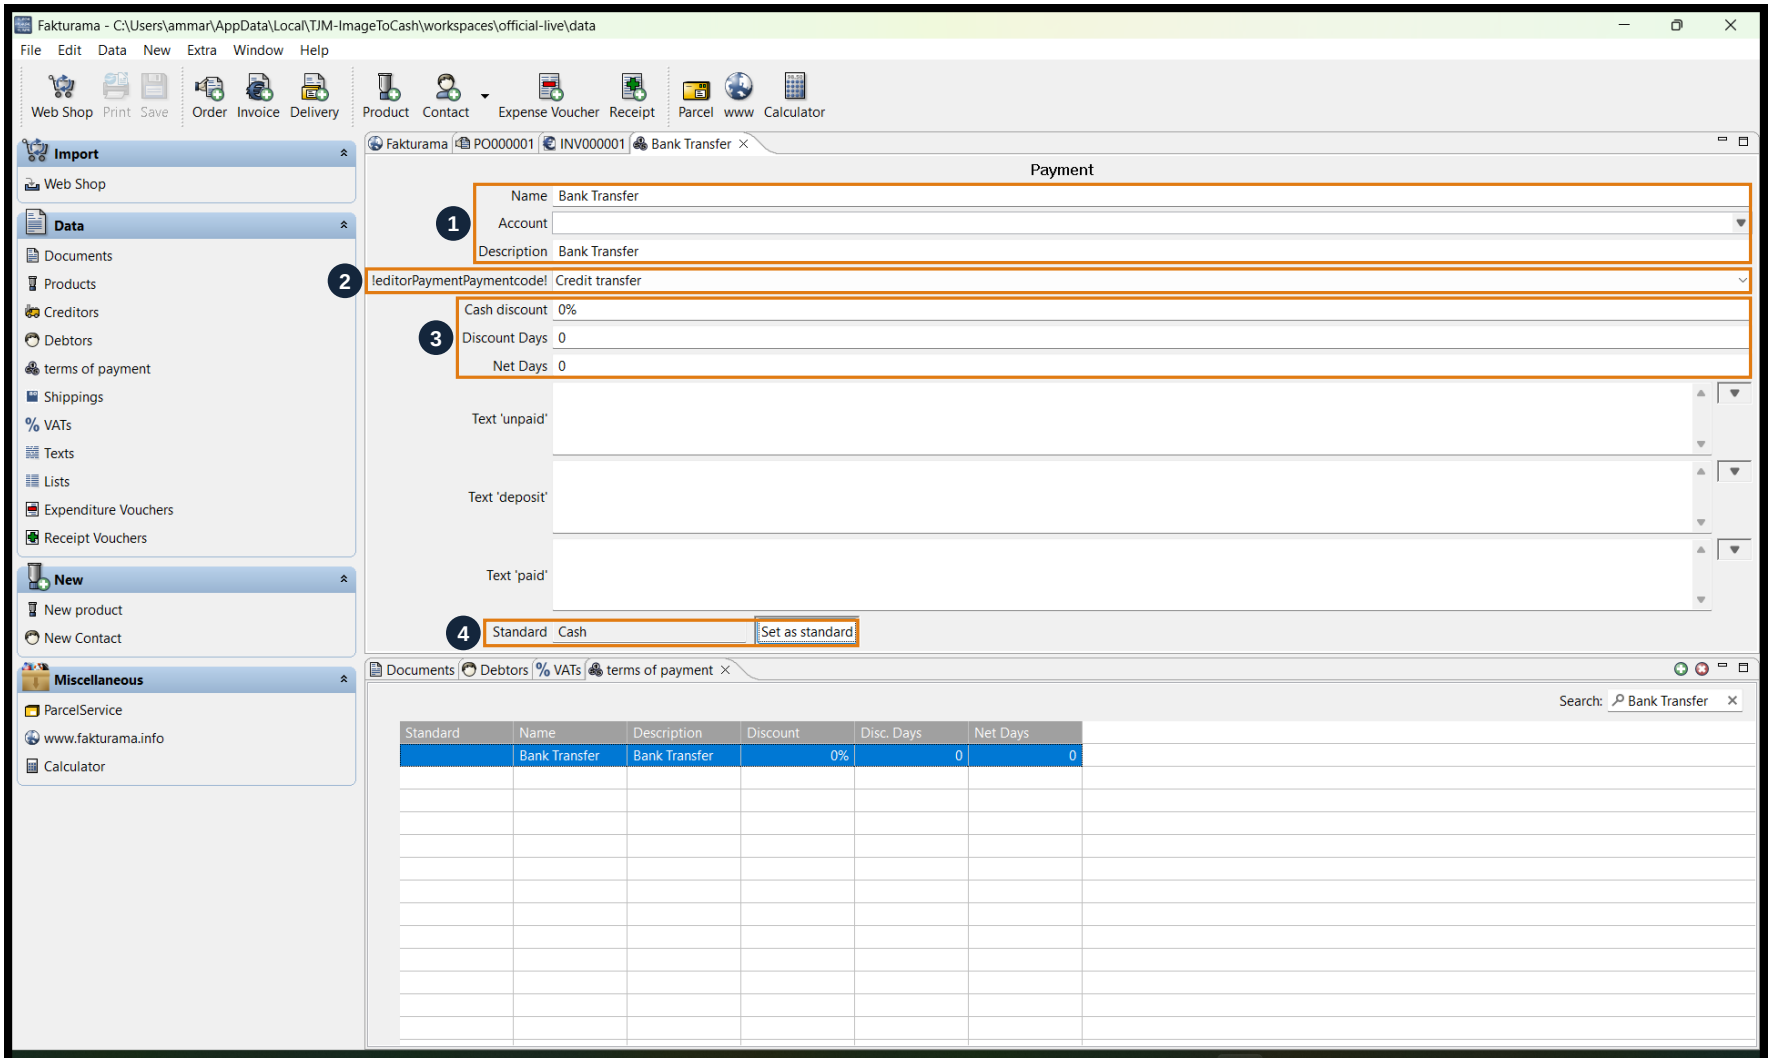

1. Alias name from the source.
2. The created Bank Transfer method is selected.
3. Discount is 0%.
4. Net or Gross is Net.

Unchanged official image. Local OCR and 1 fresh Gemini call. Brand-new Fakturama workspace. 0 operator reviews and 5 provider retries. The reserved .test email did not persist and is flagged.

4. Payment method created with the mapped code

Brief steps 2.10.3-2.10.6. Later read-only audit of the saved record, not a recording of its creation.

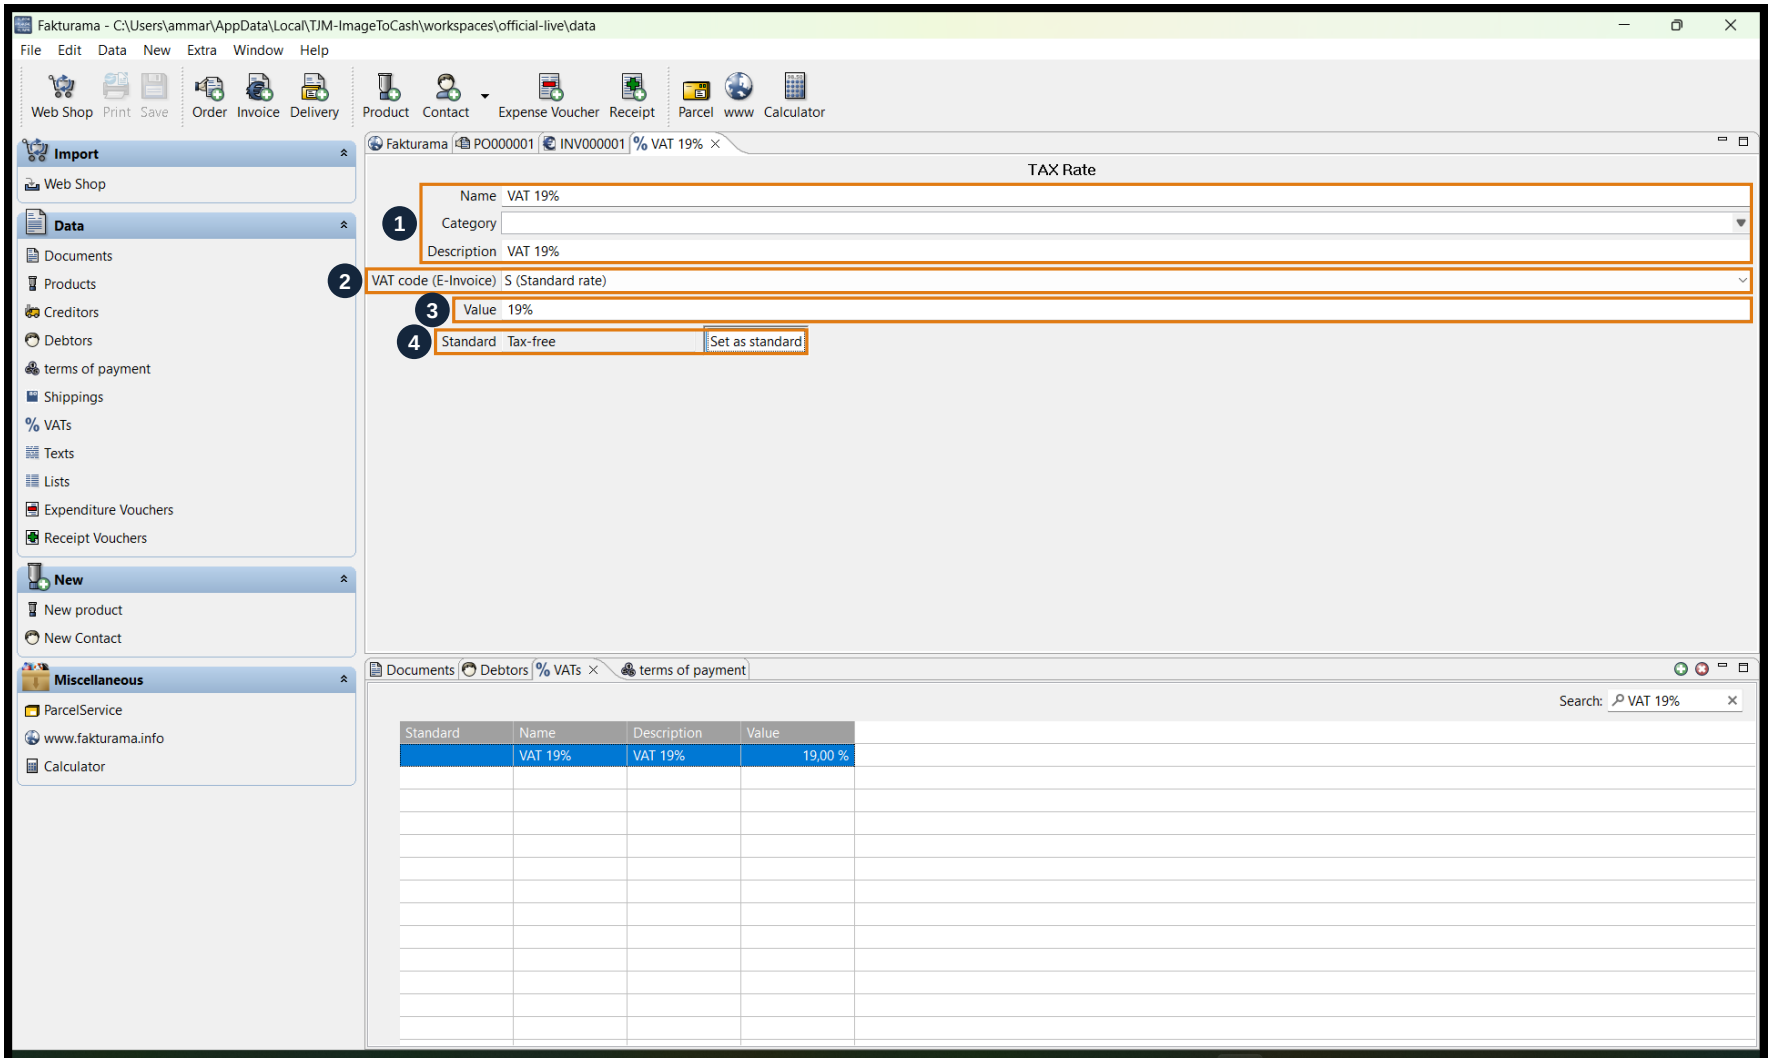

1. Name and Description are Bank Transfer; Account is blank.
2. Bank Transfer maps to the Credit transfer code.
3. Cash discount, Discount Days and Net Days are 0.
4. The standard method is still Cash; Set as standard was not used.

Unchanged official image. Local OCR and 1 fresh Gemini call. Brand-new Fakturama workspace. 0 operator reviews and 5 provider retries. The reserved .test email did not persist and is flagged.

5. VAT rate created before the Product

Brief steps 3.4-3.7. Later read-only audit of the saved record, not a recording of its creation.

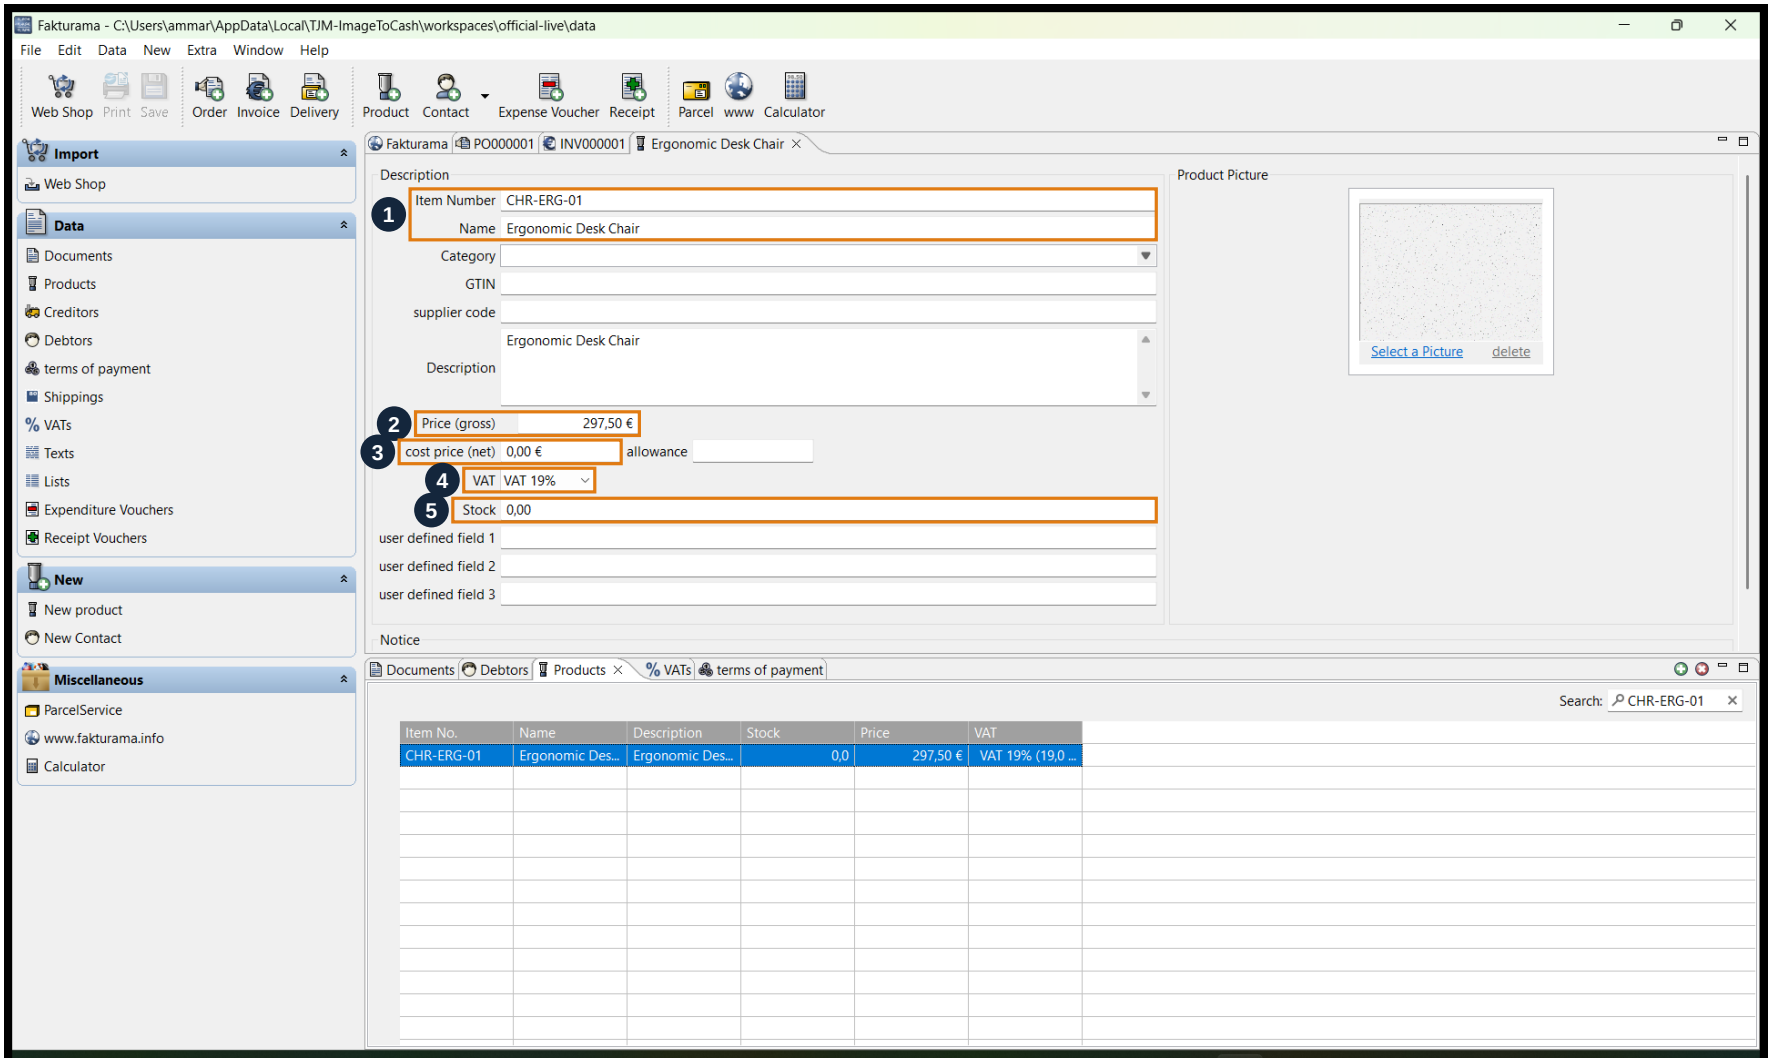

1. Name and Description are VAT 19%.
2. VAT code is S (Standard rate).
3. Value is 19%.
4. The standard VAT is still Tax-free.

Unchanged official image. Local OCR and 1 fresh Gemini call. Brand-new Fakturama workspace. 0 operator reviews and 5 provider retries. The reserved .test email did not persist and is flagged.

6. Product created with its undiscounted master price

Brief steps 3.8-3.11. Later read-only audit of the saved record, not a recording of its creation. The second Product, MAT-DESK-02, is in the same audit folder.

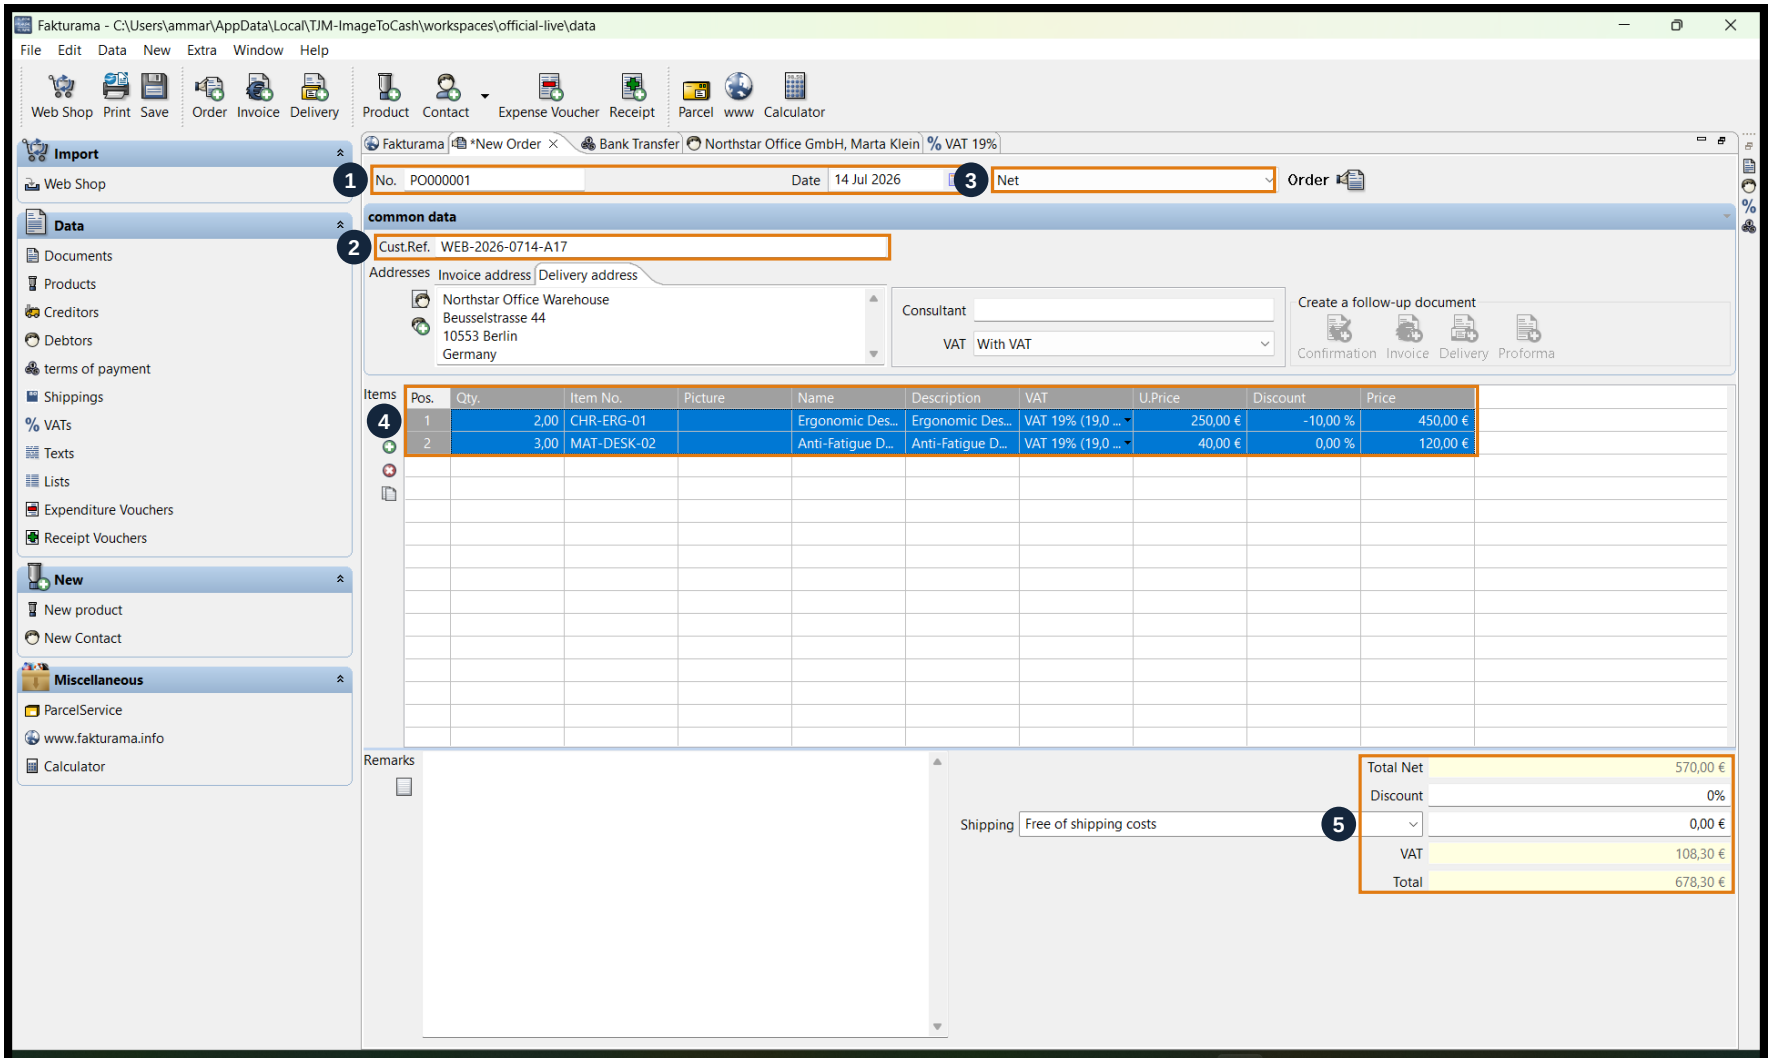

1. Item Number is the SKU; Name comes from the item description.
2. Gross master price 297.50 is 250.00 x 1.19, with no line discount applied.
3. Cost price is 0.00.
4. The exact VAT 19% is selected.
5. Stock is 0.00.

Unchanged official image. Local OCR and 1 fresh Gemini call. Brand-new Fakturama workspace. 0 operator reviews and 5 provider retries. The reserved .test email did not persist and is flagged.

7. Order complete before Save

Brief steps 1.3-1.7, 3.13-3.17, 4.1-4.3. Recorded during the run. An editor view does not prove persistence; step 9 does.

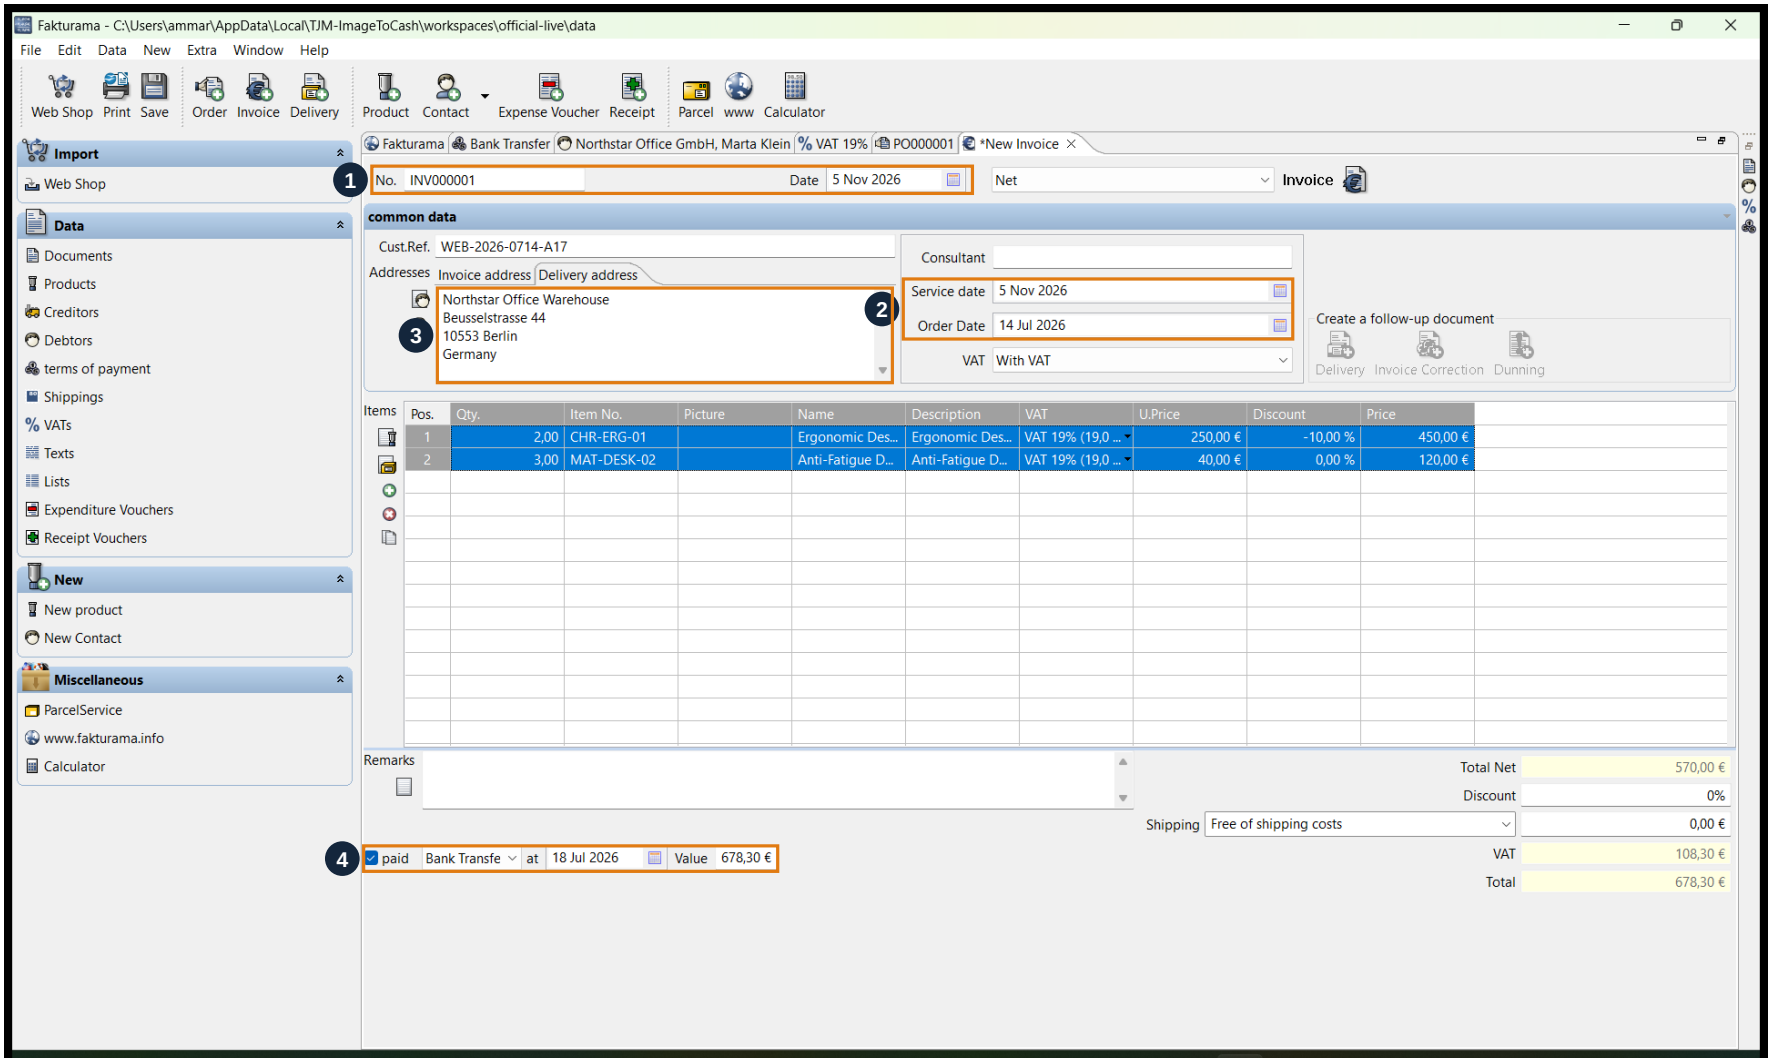

1. Generated No. PO000001 is kept; Date is the source Order Date.
2. Cust.Ref. is the extracted External Reference.
3. Document mode is Net; VAT below is With VAT.
4. Both source rows. Chair: quantity 2, U.Price 250.00, 10% discount, line 450.00. Mat: quantity 3, U.Price 40.00, line 120.00.
5. 570,00 + 108,30 = 678,30, with 0% discount and free shipping.

Unchanged official image. Local OCR and 1 fresh Gemini call. Brand-new Fakturama workspace. 0 operator reviews and 5 provider retries. The reserved .test email did not persist and is flagged.

8. Linked Invoice with the source payment

Brief steps 4.6-4.7, 5.1-5.3. Recorded during the run. Created from the saved Order's follow-up action.

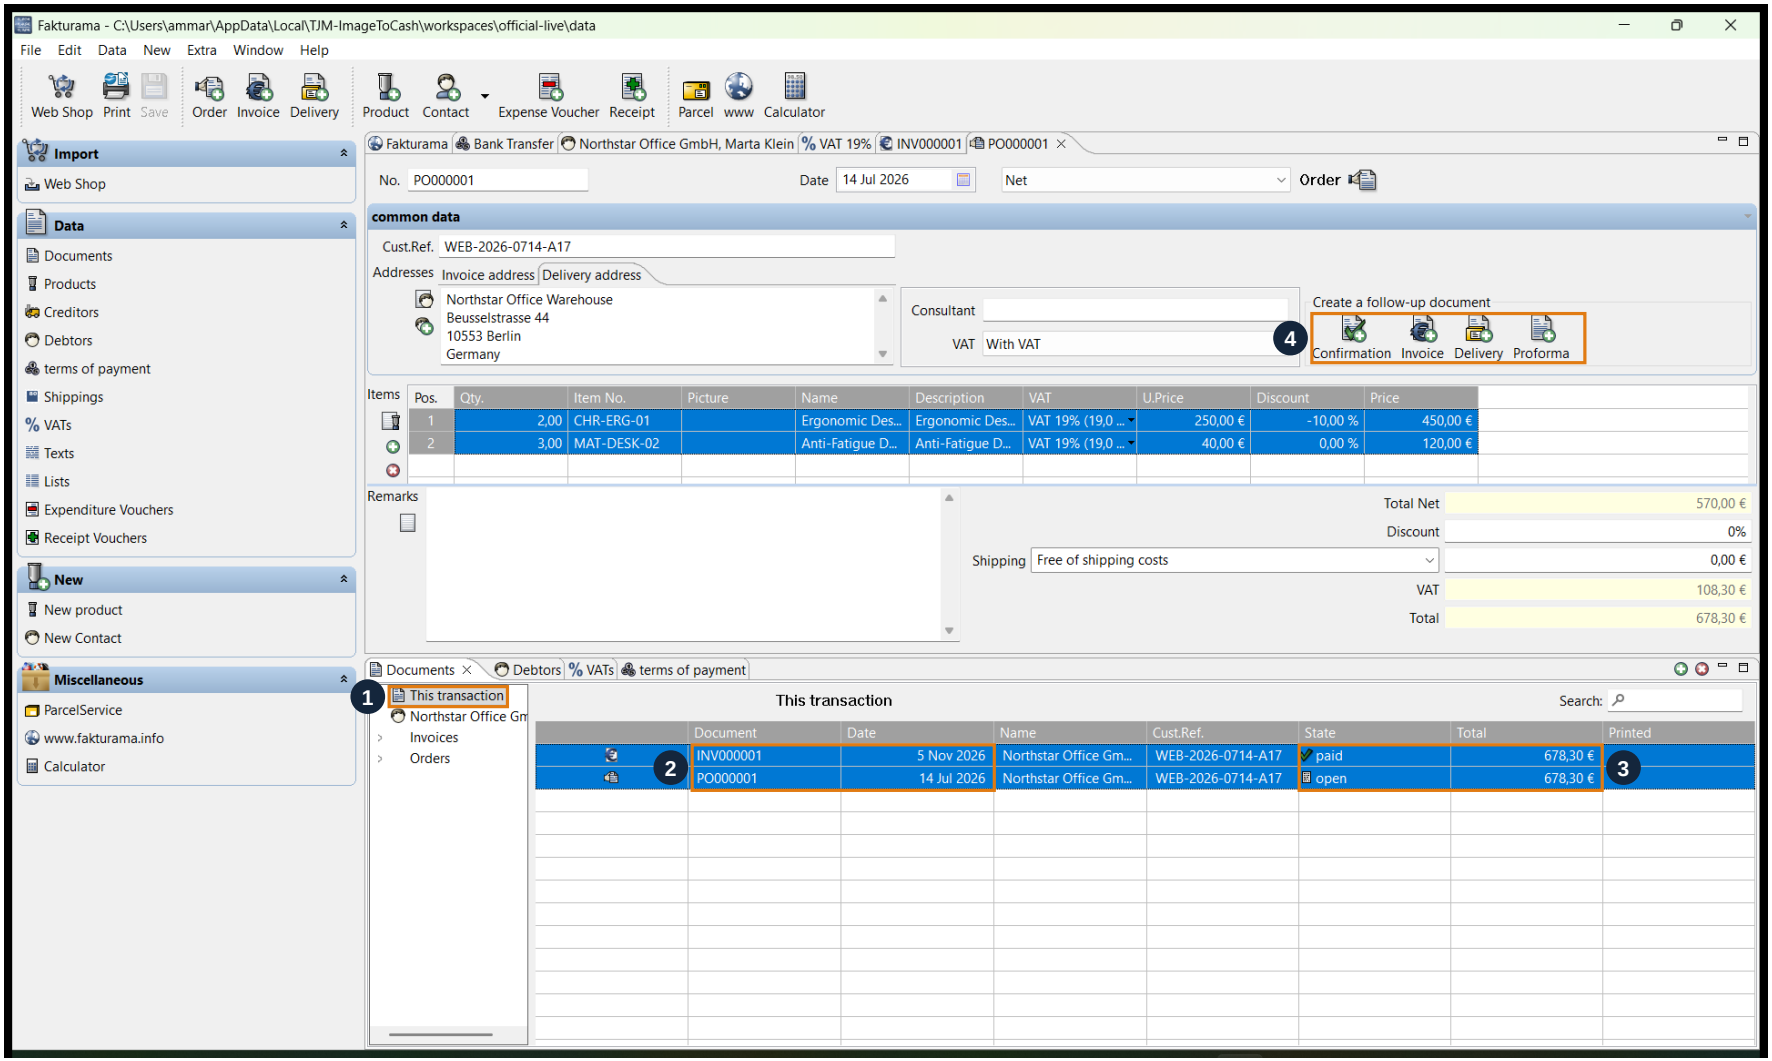

1. Generated Invoice No. and Invoice Date are kept.
2. Service date stays generated; Order Date copied from the Order.
3. Delivery address copied; the Invoice address tab is also read.
4. Literal PAID: Bank Transfer, source date 18 Jul 2026, full value 678,30.

Unchanged official image. Local OCR and 1 fresh Gemini call. Brand-new Fakturama workspace. 0 operator reviews and 5 provider retries. The reserved .test email did not persist and is flagged.

9. Saved records: paid Invoice, open source Order

Brief steps 4.5, 5.5-5.7. Recorded during the run. The Order was reopened from its saved row before this capture.

1. This transaction is selected with a blank search, so the application's own grouping links the pair.
2. Exactly one Invoice and one Order: INV000001 and PO000001.
3. Invoice is paid; source Order stays open; both total 678,30.
4. No Delivery, Correction or Dunning document was created.

Unchanged official image. Local OCR and 1 fresh Gemini call. Brand-new Fakturama workspace. 0 operator reviews and 5 provider retries. The reserved .test email did not persist and is flagged.
